

What about US?

An honest discussion on the topic of abortion

Chorus:

What about us?
Yeah
You don't see me
but you feel me moving all night
What about us
I don't understand
You say I wasn't planned
But what about us
I got a right to live
I got a right to life
What about us?

Verse:

I know that you think you have a choice
When you say that all you do is take my voice
I am more than just a right wing vote
I can feel it when the knife pokes
Mommy I don't like this clinic
This don't feel too right
I know that the times are hard & you don't think the time is
right
I get you respect your body
What about respecting mine?
I just wanna live my life.

Chorus:

What about us?
Yeah
You don't see me but you
feel me moving all night
What about us
I don't understand
You say I wasn't planned
But what about us
I got a right to live
I got a right to life
What about us?

Verse 2:

Walk into that
Doctors appointment
I know that
I'm a disappointment
But don't believe
Just because you ain't ready
That this is what you need
This ain't best for me
I am smaller than a grain of rice
But still I gotta heart
I know you don't see me now
But I was living from the start
I got eyes that start to form
& soon I'll recognize your voice
I got hands & I got feet
& you can see that I'm a boy
D&C or maybe D&E
Do you know what that means?
It means that they gon' put a suction tube up inside of
you until they get to me & they rip me out piece by piece
& everything I was is everything you couldn't see
If I was just a cell then how are you so free?
They tell you feel no shame, I felt everything
& now I'll never ever breathe, smell, eat well, love
What about us?

Questions for Discussion

1. **Watch the video of “What About Us?” and then read the lyric aloud in your group.**

2. **What is happening in the video?**

3. **What does it mean to have an abortion?**

Definition of Abortion Methods

D & E Abortion

Second Trimester

A dilation (dilatation) and evacuation abortion, D&E, is a surgical abortion procedure during which an abortionist first dilates the woman's cervix and then uses instruments to dismember and extract the baby from the uterus. The D&E abortion procedure is usually performed between thirteen and twenty-four weeks LMP (that is thirteen to twenty-four weeks after the first day of the woman's last menstrual period).

Chemical Abortion (or The Abortion Pill)

There are two medications used during a typical medical abortion. The first is mifepristone (also called the abortion pill, RU-486, or Mifeprex). About two days after this is taken, the second round of medication is given, called misoprostol. This causes the contractions, the fetus and placenta are expelled, and the abortion is completed.

The second step of medical abortion involves taking a different medication, called misoprostol, or Cytotec, about two days later. This medication causes contractions, which helps the woman deliver the fetus. This process is typically complete within 24-48 hours after the second pills are ingested. The abortion pill reversal is not effective after misoprostol is taken.

One to two weeks later, the woman will return to the clinic for a follow-up exam to ensure that the abortion was complete. If it was not, a surgical abortion may have to be performed. *Read more on the Abortion Pill Reversal.

4. What are reasons women choose to have abortions?

5. Is it ok to have an abortion?

6. Do we all have a right to life? Even the pre-born?

7. What does the Bible have to say about abortion? Read the following passages and write out a summary of each verse below:

Exodus 20:13

Psalms 139:13-16

Jeremiah 1:5

Psalms 127:3-5

Proverbs 6:16-19

Genesis 1:27

8. Can and will God forgive abortion?

9. What should my attitude be towards women who have had abortions?

10. As a Christ follower, how can you stand confidently and courageously for Life when the world has a different opinion? Read the following verses aloud within your group then discuss.

Romans 5:8

8 But God demonstrates his own love for us in this: While we were still sinners, Christ died for us.

Romans 3:20-24

20 Therefore no one will be declared righteous in God's sight by the works of the law; rather, through the law we become conscious of our sin. 21 But now apart from the law the righteousness of God has been made known, to which the Law and the Prophets testify. 22 This righteousness is given through faith in Jesus Christ to all who believe. There is no difference between Jew and Gentile, 23 for all have sinned and fall short of the glory of God, 24 and all are justified freely by his grace through the redemption that came by Christ Jesus.

Ephesians 2:8-9

8 For it is by grace you have been saved, through faith—and this is not from yourselves, it is the gift of God— 9 not by works, so that no one can boast.

James 4:6

6 But he gives us more grace. That is why Scripture says: "God opposes the proud but shows favor to the humble."

Acts 13:38

"Therefore, my friends, I want you to know that through Jesus the forgiveness of sins is proclaimed to you.

Acts 26:18

to open their eyes and turn them from darkness to light, and from the power of Satan to God, so that they may receive forgiveness of sins and a place among those who are sanctified by faith in me.'

Ephesians 1:7

In him we have redemption through his blood, the forgiveness of sins, in accordance with the riches of God's grace.

*Abortion Pill Reversal (APR) – There is an effective process called abortion pill reversal that can reverse the effects of the abortion pill and allow you to continue your pregnancy, but time is of the essence. The abortion pill is the common name for a chemical abortion process that combines two medications. It is also referred to as medical abortion, self-managed abortion, or DIY abortion. After taking the first pill, some women regret their choice and want to reverse it. That's where abortion pill reversal comes in. Using the natural hormone progesterone, medical professionals have been able to save 64-68% of pregnancies through abortion pill reversal. Contact abortionpillreversal.com for more information.
